Description of Problem

Please include a detailed description of the issues, as well as a description of and a copy of any professional studies, citations or reports from government entities, recommended solutions, and any cost information or estimates. If additional space is needed, please attach.

October 2012 We had muliple storms come thru our area.Desert Valley Elementary suffered 17 Classroom leaks and interior room damage as a result of the storm. We filed a claim with the "TRUST". After their investigation they reported that the damage was not a result of storm damage,the roof drains them selves are faulty and need to be repaired to avoid further interior damage. They sent a tem out to test for mold,suvey damage. Also they are repairing all classroom interior damage as a result of the roof/storm leaks. It is in our best interest to have the repairs done to insure the current roof situation will not cause any further interior damage.
